

Moving the stones

There were almost 100 large stones in the outer circle at Avebury. The largest weighs about the same as six double-decker buses.

Cut out the pictures and put them in the right order to show a way it might have been done (when the pictures are in the right order they make a word).

Make up your own storyboard or cartoon strip in three parts -

1. Pulling the stones to Avebury
2. Putting the stones upright
3. Using the stones in a ceremony to please the gods
