

Using Wessex Archaeology resources

English

Archaeology Wordsearch

Key words: Introduces potentially new vocabulary and involves sentence construction.

Story of an artefact: The activity involves creative writing and research.

Animal Skeletons folder: "Activities for using animal skeletons" provides ideas for activities.

Maths

Understanding a matrix: The activity involves ordering of numbers and working with shapes and diagrams.

Coordinates: The activity involves map reading and plotting of coordinates.

Plot a pot: The activity is based around enlargement using grids.

Use the Pony skeleton to demonstrate scaling. There is the sheet *Scaling the burial on to your gridded paper* which advises how to do scaling and gives a few questions. There is the pony skeleton with a grid over the top *Pony Skeleton with grid* and a grid with the drawing of the skeleton started *Grid for pony skeleton*.

Art

Plot a pot: The activity is based around enlargement using grids.

Activity sheet recreating an AngloSaxon pot: Gives step by step instructions on how to create an Anglo-Saxon pot.

AngloSaxon Pots: Examples of Anglo-Saxon pottery

Pony Skeleton: Record the burial through accurately drawing it.

Science

Animal Skeletons folder: "Activities for using animal skeletons" provides ideas for activities.

Extra

Colouring sheets folder: A variety of colouring sheets showing different time periods.

Chronology: A list of time period categories

Wessex videos: Links to a couple of videos which could be used to generate discussion around archaeology.

Section: An example of an archaeological section
